Data Tools: NumPy, Pandas

Web Scraping: Selenium, Requests, BeautifulSoup, Scrapy, Octoparse, ParseHub

Other Tools: Git, GitHub, Figma, Canva

Other Skills: SEO Optimization, UI/UX Design

Soft Skills: Fast learner, strong problem-solving and debugging skills, team-oriented with good communication skills

SIGNIFICANT PROJECTS

Clinicode

React, Django

- An appointment and prescription system where patients can find nearby doctors, view appointment details with live serial, and check prescription history.
- Doctors can manage medical records, select from 24,900 medicines, print customized prescriptions, and manage patient history.
- In active use by Dr. Ashraful Suhad, Dolfin Hospital, Dhaka.

Uniboard

Flutter, Firebase, Firestore, Cloudinary

- A university notice and routine management app synchronized with a private Facebook group.
- Supports dynamic routine updates and push notifications for students.

Scholarium

React, Django, Selenium

- Scraped over 10,000+ universities across 191 countries and 6 million professor records (emails, names, addresses, etc.).
- Currently building the accompanying website as part of an internship project.

Tokenngo

Django, Arduino

- An RFID-based student payment and token system where students recharge via bKash, then collect tokens at canteen counters.

KUCC Website

React, Django

- Contributed to the live Khulna University Career Club official website development.

TGPA Estimator

React, Django

- A student utility tool that calculates expected TGPA based on predicted marks or grades.

ZS Sharif Dental Care Website

HTML, CSS, JavaScript

- Developed a professional dental care clinic website, currently live.

LANGUAGE PROFICIENCY

Language	Reading	Writing	Speaking
